DR. STEVEN STEINHUBL

Do you think we can trust chatbots to treat mental health? Are you excited or concerned (or both!) about digital health apps on your phone that are collecting your data? Do you want to create new technologies but do so in a responsible way? Join us for an exciting conversation with two experts: Dr. Şerife Tekin, Associate Professor of Philosophy at the Center for Bioethics and Humanities at SUNY Upstate Medical University, and Dr. Steven Steinhubl, Vincent P. Reilly Professor of Biomedical Engineering at Purdue and practicing physician, who will discuss the complex landscape of digital health technologies and how engineers, scientists, ethicists, and policymakers can work together to safely deploy these technologies.

THURSDAY, NOVEMBER 2

6:30PM - 7:30PM

NETWORKING TO FOLLOW & FOOD PROVIDED

THE COMMONS - SECOND FLOOR, ME BUILDING

585 PURDUE MALL, WEST LAFAYETTE, IN 47907
