Learn about Available Opportunities

In this session for PhD students, several fellowship opportunities for doctoral computational researchers will be discussed along with key insights to the deadlines, proposal components, and application procedures. Many of these fellowships are open to international and domestic students from computer science, various fields of engineering, statistics, mathematics, and other computational research areas.

Fellowships Covered:

Google PhD Fellowship
Apple Scholars in AI/ML Fellowship
Meta PhD Fellowship
IBM PhD Fellowship
DOE Computational Fellowship
And more!

Questions? Contact Dr. Lisa Nielsen at lnielse@purdue.edu

Want more? Additional grantsmanship and professional development workshops are posted [here](#).
