Apprentice Program Opportunities

Biomedical Technician Apprentice

As a Biomedical Technician Apprentice, you will respond to service calls under supervision to evaluate, diagnose, perform repair and planned maintenance on biomedical equipment and drive customer satisfaction through service excellence.

Client Service Technician Apprentice

As a Client Service Technician Apprentice, you will perform various equipment service processes and procedures to drive customer satisfaction and ensure proper functionality of customer diagnostic imaging, Life Care Solutions and biomedical equipment.

Field Engineer Apprentice

As a Field Engineer Apprentice, you will perform various equipment service processes and procedures including troubleshooting issues, implementing repairs and completing preventive maintenance to drive customer satisfaction and ensure proper functionality of diagnostic imaging and Life Care Solutions equipment.

Advantages of the GE Healthcare Apprentice Program

- 1 Onboarding** at the GE Healthcare Institute provides access to cutting-edge training facilities and visibility to leadership.
- 2 Training** curriculum builds the skills and competencies required to apply for a full-time service role.
- 3 Mentoring** program strategically partners each apprentice with an experienced field employee.
- 4 Career Pathing** offers apprentices a line of sight to available opportunities to develop technically and professionally.
- 5 Networking** opportunities allow the apprentices priority to open roles throughout the organization and provide managers visibility to graduating apprentices.

Apprentice Program Areas of Focus

Visit [gehealthcare.com/en/about/apprentice-job](https://www.gehealthcare.com/en/about/apprentice-job) to learn more.

“This role has set me up for a great career and future. I am pursuing a MBA with management as a goal within GE. All this has been made possible by this program.”

– Chase, Field Engineering Technician

“The program is well structured to build up your troubleshooting skills rather quickly. I was able to rely on my team member’s support for any problems I encountered. The apprenticeship is an invaluable learning experience that no one should pass up.”

– Leland, Biomedical Engineering Technician
