

2024 Lfteroff **Summer** Internship

Welcome to the extraordinary world of medical technology innovation!

The Lfteroff Internship is an immersive, hands-on summer program designed to provide a broad view of careers in medical innovation. Interns are paired with our resident companies-in-development, where they leverage their skillsets and interests to work as part of the team on real projects. They meet with physicians in different specialties and shadow clinic and OR procedures at El Camino Health's Mountain View hospital. To gain a deeper understanding of what it takes to bring a new technology to market, they interact with experts in early-stage innovation, venture capital, and intellectual property, and take field trips to visit large and small companies. Throughout their stay, the interns also work closely with our veteran staff who provide guidance on potential career paths and options.

The 2024 Lfteroff Internship is a paid, 8-week program that runs from June 20 to August 14, 2024. Applications open on November 27, 2023 and close on January 14, 2024.
