

Scientific Leadership
Development
Program

Are you completing your
PhD/PharmD within the next year and
looking to develop your scientific
leadership skills in a pharmaceutical
industry environment?

Grow & Develop Your Leadership Skills at Tolmar

**APPLY
NOW!**

Tolmar's two-year, mentored rotational program is uniquely designed to give future scientific leaders experience in multiple areas of pharmaceutical development.

Explore:

- Formulation/Polymer Development
- Analytical Development
- Early-Stage Product Development
- Electives (Program Management, Manufacturing Science, etc.)

A woman with long dark hair, wearing a white lab coat, is smiling and looking down at a glass bottle in a laboratory setting. The background is slightly blurred, showing laboratory equipment.

Grow & Develop Your Leadership Skills at Tolmar

If your application is selected, you'll travel to beautiful **Fort Collins, Colorado**, in the foothills of the Rockies, for an on-site interview to meet the team, tour our facilities, and present your current research.

As a **full-time employee** at Tolmar, you can expect:

- To start after degree completion, beginning with your first **six-month rotation** including full job training and orientation
- To be assigned a **mentor** to guide you on your journey throughout all four rotations
- To **contribute** in each rotation to solve a short-term problem, and present your work
- After two years, to be placed onto a development team to continue your **career** at Tolmar!
