

REGENERON INTERNSHIP & CO-OP PROGRAM 2026

Explore bold ideas. Go deep into your passion. And learn from people at the top of their field. As a Regeneron Intern or Co-op, you'll get hands-on, real-world experience in biotech.

If you're passionate about research, clinical and drug development, manufacturing, and/or business, please visit our [careers site](#) and apply to one position that best matches your major!

Please see second page for available job listings.

Eligibility

- Be enrolled in or accepted to an academic program
- Be pursuing an Associates, Bachelors, Masters, or PhD degree and returning to school the semester after the internship or co-op
- Commit to 40 hours per week for the position
- Cumulative GPA of 3.0 is preferred
- Have been a leader in campus activities, clubs, sports, or the community

Experience Regeneron

- Get paid for your hard work
- Hands-on projects that make an impact
- Engage with Regeneron leadership
- Network with other employees and students
- Learn about our global organization
- Attend professional development sessions
- Engage with diverse Employee Resource Groups
- Free food and swag
