containing information about joining the meeting.

*Hosted by College of Engineering and the
Weldon School of Biomedical Engineering*

LECTURE

SEPT. 20

10:30a.m. - 11:30a.m.

ARMS ATRIUM

PANEL

SEPT. 20

11:35a.m. - 12:35p.m.

ARMS ATRIUM

The Future of Neurotechnology in the Discovery and Treatment of Neurodevelopmental and Neurodegenerative Disease

Moderator: Dr. Aaron Bowman

Professor and Head of the School of Health Sciences and
member of the Purdue Institute for Integrative Neuroscience

Panelists:

Dr. Huda Y. Zoghbi

Investigator, Howard Hughes Institute, Distinguished Service Professor, Baylor College of Medicine, and Founding Director of the Jan and Dan Duncan Neurological Research Institute at Texas Children's Hospital

Tamara Kinzer-Ursem

Associate Dean of Graduate and Professional Education for the College of Engineering,
Martha E. Gross Associate Professor, Weldon School of Biomedical Engineering

Maria Dadarlat Makin

Assistant Professor, Biomedical Engineering

Chris Rochet

Professor of Medicinal Chemistry and Molecular Pharmacology and John and Donna Krenicke Director of Purdue Institute for Integrative Neuroscience Assistant Professor, Biomedical Engineering

Riyi Shi

Mari Hulman George Endowed Professor, Applied Neuroscience, Professor, Biomedical Engineering, Director, Center for Paralysis Research and Department of Basic Medical Sciences, College of Veterinary Medicine and Weldon School of Biomedical Engineering
