

# Birck Nanotechnology Center Shut Down Notice

## Cleanroom & Laboratory Shut Down

From Dec. 4, 2018 @ 7:30AM to Dec. 7, 2018 @ 4PM

The Birck Nanotechnology Center will be undergoing a campus chilled water interruption December 4 through December 7, 2018. Air handling systems, exhaust systems, toxic gas delivery, and monitoring systems will be down beginning at 7 a.m. Tuesday, December 4 through 4 p.m. Friday, December 7.

All CLEANROOM research work will be suspended until the chilled water repair is complete and all systems are returned to normal. Only authorized personnel will be allowed to enter the cleanroom during this time period.

In addition, the laboratory areas will also be affected by this interruption. As such, all LABORATORY activities that involve exhausted hoods, vacuum systems, and/or toxic gas systems will be down beginning 7 a.m. Tuesday, December 4 through 4 p.m. Friday, December 7. However, work that involves taking standard electrical measurements may be carried out in the LABS provided that fluctuating air temperature and humidity do not affect the readings. No chemical work will be allowed during this period.

It is anticipated that the campus chilled water repairs will be completed by the end of the day on Friday, December 7.

Thank you for your cooperation and understanding during this important repair shutdown.

Mark Voorhis  
Building Manager  
Birck Nanotechnology Center
