

Birck Nanotechnology Center Shut Down Notice
December 4, 2018 – December 7, 2018

The Birck Nanotechnology Center will be undergoing a campus chilled water Interruption and a building wide **Uninterruptable Power Supply (UPS)** shutdown from December 4 through December 7, 2018. Air handling systems, exhaust systems, toxic gas delivery, and monitoring systems will be down beginning at 7 a.m. Tuesday, December 4 through 4 p.m. Friday, December 7.

All CLEANROOM research work will be suspended until the chilled water and UPS repairs are completed and all systems are returned to normal. Only authorized personnel will be allowed to enter the cleanroom during this time period.

In addition, the laboratory areas will also be affected by this systems maintenance. As such, all LABORATORY activities that involve exhausted hoods, vacuum systems, and/or toxic gas systems will be down beginning 7 a.m. Tuesday, December 4 through 4 p.m. Friday, December 7. However, work that involves taking standard electrical measurements may be carried out in the LABS provided that fluctuating air temperature and humidity do not affect the readings. No chemical work will be allowed during this period.

It is anticipated that the **UPS** power shutdown will start on Thursday December 6 at 8:00AM lasting until 4PM. Users with critical equipment on the UPS system will be notified with special instructions.

It is anticipated that the campus chilled water repairs will be completed by the end of the day on Friday, December 7.

Thank you for your cooperation and understanding during these important repair shutdowns.

Mark Voorhis
Building Manager
Birck Nanotechnology Center
