

Starting Tuesday, **May 18**, BRK, in partnership with Physical Facilities, will be instituting a desk side dual stream recycling program.

*What's that mean?* On Tuesday, a new blue recycling container will appear by your desk. It looks like a wastebasket with two openings, but it's for recyclables only. The larger opening is for **mixed recyclables**, and the smaller opening is for **office paper**.

**Office Paper is....**

- Unbound
  - Non-glossy
  - Neutral Color
- Paper clips and staples are OK.

**Mixed Recyclables are**

- Newspapers/Ads/Inserts
- Magazines
- Books/Notebooks
- Pamphlets/Brochures
- Glossy/Bright Colored Paper
- Junk Mail
- Cardboard (non-corrugated)
- Cans
- Plastic

*Why separate office paper?* Office paper resells at a premium price. The revenue stream from this type of premium paper helps offset some of the operating costs of the recycling program.
