

SEMINARS IN HEARING RESEARCH

WILLIAM SALLOOM

POST-DOCTORAL FELLOW, USC KECK SCHOOL OF MEDICINE

Title: Human Cochlear Masking and OAE Suppression Measured Using Dynamic Stimuli

Schroeder-phase complexes are stimuli that contain multiple harmonic frequency components of equal amplitude but variable starting phase, summing to produce a series of periodic linear frequency sweeps.

THURSDAY - MARCH 30, 2023

TIME: 10:30 - 11:20 AM

LYLE 1150

ZOOM INFO: <https://purdue-edu.zoom.us/j/4326340458>

MEETING ID: 432 634 0458
