---

Sandia National Laboratories’ university partnership strategy includes establishing an enduring relationship with Purdue to nurture talent, collaborative research, and national advocacy. Tips on how to partner with the Labs will be featured at an event from 9:30-10:30 AM on Friday, November 2nd in MGRN 121. The meeting will include opening remarks by Sandia President and Laboratories Director Paul Hommert, followed by a panel discussion moderated by Sandia’s Marcey Hoover. The panel will feature Purdue and Sandia staff discussing how they have successfully partnered and is intended to provide valuable information on collaboration to both current and future partners at Purdue University.
