

**SPIE. STUDENT  
CHAPTER**  
PURDUE  
UNIVERSITY

**Lunch Social**  
**Prof. Yamilov and Prof. Medvedeva**

Dr. Alexey Yamilov is a professor of Physics at Missouri S&T, with a research focus in theoretical and computational condensed matter physics and optics, employs a variety of analytical/numerical techniques to study transport of the electromagnetic, electronic and other types of waves in the inhomogeneous media

Dr. Julia E. Medvedeva is a professor of physics and a senior investigator at the Materials Research Center at Missouri S&T, with a research focus in density functional calculations of various properties of metal oxides, nitrides, chalcogenides, alloys, and strongly correlated materials

***Join us at The Bryant***  
***Aug. 14,***  
***12:30PM - 2:00PM***  
***RSVP: (scan QR)***
