PURDUE
OFFICE OF TECHNOLOGY COMMERCIALIZATION

You are cordially invited to attend

Regulatory Pathways Symposium

It's important for researchers who are creating valuable Intellectual Property to keep abreast of the complex world of regulatory requirements. In this presentation, you will have an opportunity to hear industry experts from Roche Diagnostics Inc., Eli Lilly and Co. and Endocyte Inc., and to participate in a roundtable discussion.

This program features a keynote presentation from Eric Kolodziej, Senior Vice President of Global Regulatory, Roche Diagnostics Operations Inc., followed by presentations from Jeff Ferguson, Sr. Research Advisor, Global Regulatory, CMC Small Molecule, Eli Lilly and Co., and Conrad Wong, Advisor, Regulatory Affairs, Early Phase Clinical Development, Eli Lilly and Co. The program will conclude with a roundtable general regulatory pathways discussion with the above presenters and Philip Low, Chief Science Officer, Endocyte Inc.
