Information Session: October 22nd, 2014 @ 6 PM

Venue: Rm 1001, Birck Nanotechnology Bldg (food & drinks served!)

At Seagate, we believe having access to today's brightest and best interns and graduates is critical to our future growth. Our philosophy is to "be where students are" – which is why we support your development and assist you as you grow your career while you are still in school. Seagate offers a diverse environment, enabling you to be productive while securing knowledge in leading-edge technologies and preparing you for future leadership.

### Who we're hiring

MS or PhD students majoring in:

- Chemistry
- Computer Engineering
- Electrical Engineering
- Mechanical Engineering
- Materials Science
- Physics
- Other Science or Engineering students with an interest in hard drive & storage engineering

### About Seagate

Founded in 1979, Seagate is the leading provider of hard drives and storage solutions.

From the videos, music and documents we share with friends and family on social networks, to servers that form the backbone of enterprise data centers and cloud-based computing, to desktop and notebook computers that fuel our personal productivity, Seagate products help more people store, share and protect their valuable digital content.

Seagate offers the industry's broadest portfolio of hard disk drives, solid-state drives and solid-state hybrid drives. In addition, the company offers an extensive line of retail storage products for consumers and small businesses, along with data-recovery services for any brand of hard drive and digital media type.

Seagate employs more than 50,000 people around the world.
