PURDUE

Free Lunch!

**Ask me
anything!**

Join us for lunch with Prof. Andrea Cavalleri, founding director of the Max Planck Institute for the Structure and Dynamics of Matter and Professor of Physics at Oxford. He is a pioneer in ultrafast condensed matter physics, recognized for pioneering work on photo-induced phase transitions in quantum materials. Don't miss the opportunity to hear from one of the world's leading voices in ultrafast condensed matter physics!
