

Mentoring@Purdue

Graduate Student Workshop

M@P Invited Lecture Series

with Special Guest: **Dr. Rowena Ortiz-Walters**

The Role of Mentors' Instrumental Support for Graduate School and Career Success

Monday, March 5, 2018
2:00pm - 3:30pm
WSLR 008

In an informal setting, Dean Ortiz-Walters will share how instrumental support from mentors has benefited her career, both as a student and professional, in tangible ways. She will converse with students about the value and various forms of instrumental mentoring and how this type of assistance specifically can mitigate against graduate school derailers. She will also engage in a general Q&A session about her career and mentoring relationships so that students can benefit the most from her personal experience.

What is M@P?

M@P is a mentoring program designed for women and minority graduate students in the College of Agriculture at Purdue University. M@P aims to improve the quality of graduate education through fostering mentoring relationships between graduate students and faculty or staff members in the Agriculture and Life Sciences.
