Faculty/Staff Seminar

M@P Invited Lecture Series

with Special Guest: **Dr. Rowena Ortiz-Walters**

Equipping Faculty/Staff to Provide
Instrumental Support to Protégés of Color

Tuesday, March 6, 2018

10:30am - 12noon

Pfendler Hall, Room 241

Protégés of color receive less instrumental support, yet this type of mentoring assistance is linked to success including publications. Therefore a fundamental question, which needs to be answered for graduate student success is: how do we improve mentors' provision of instrumental help to protégés of color? This session will review research findings and layout a set of recommendations to answer this question.

What is M@P?

M@P is a mentoring program designed for women and minority graduate students in the College of Agriculture at Purdue University. M@P aims to improve the quality of graduate education through fostering mentoring relationships between graduate students and faculty or staff members in the Agriculture and Life Sciences.
