

# Faculty positions available in current and emerging thrust areas

Centre for Nano Science and Engineering, Indian Institute of Science, Bangalore

**Current Areas:** Materials, devices and systems for (a) Electronics (b) Photonics (c) Energy (d) MEMS and NEMS and (e) Microfluidics.

**Identified Thrust Areas and Positions:**

a) Materials Scientists or solid state chemists with a background in structure property correlations. Expertise in oxides will be an added advantage; b) Meta Materials; c) Nano-bio technology; d) Neuromorphic devices; e) Transmission Electron Microscopy of device structures; f) Molecular Electronics; g) Additive Manufacturing; h) Energy Storage
