# Degenkolb Engineers is looking for engineers to join our award-winning structural engineering firm.

As renowned leaders in seismic and structural engineering, Degenkolb offers a diverse, challenging mix of projects on both new and existing structures. You will have the opportunity to follow your interests and advance as an engineer. We promote career progression by providing mentoring on project work, company-wide training from in-house experts, and support of individual participation in professional activities and associations. At Degenkolb, we know that your future development is how we ensure mutual success.

- Are you pursuing an opportunity to become a valued member of a collaborative engineering team?
- Are you hoping to join a company that will actively support your career growth?
- Are you looking to work for one of the leaders in seismic and structural engineering?
- Are you ready to apply or working towards your academic credentials in structural engineering?
- Does working on a challenging mix of projects on both new and existing structures excite you?

**If your answer is “yes” to all, then we would love to hear from you.**

We post job openings for engineers (0 to 5+ years of relevant experience) on our website. We also offer intern scholarship opportunities. If you're interested in joining our firm, and see an opening that intrigues you, please apply for that position through our website: [degenkolb.com/job-openings/](https://degenkolb.com/job-openings/)

## COLLABORATORS. LISTENERS. EXPERTS.
