

Brings Energy

Drains Energy

I enjoy learning
new things &
growing my
knowledge

Helping the locals
on their asset and
also help students
~~in class~~

Not completing
one task from
start to finish
in one sitting

waking up
early

- Late cleaning
- New tools

I really love
working with
my faculty &
grad students

Meeting ~~with~~
faculty &
learning new
things

I enjoy the
problem solving it
takes to finding
answers to all the
questions.

I don't really
enjoy the
repetitive
nature

Not knowing
how to do certain
tasks,

I dread the
number of emails
I get daily.
