

# Brings Energy

# Drains Energy

working with students to deliver excellent events

→ Stakeholder engagement - success/contentment/career advancement alumni outreach.

→ working with staff - Ensuring other workers responsibility

Like  
Talking with the students

I enjoy meeting with students.

Dread  
Waiting on responses from faculty, staff, students

not getting complete info upfront & not knowing to ask about it

Being a mouthpiece for ideological policies / internal & external conflict

Public policy that impacts micro level decisions.

I dislike the overarching feeling of having a lot to learn and getting an inkling of what is expected of me.
