

# Engineering in the Southern Cone:

## Buenos Aires and Patagonia

May 14 - May 30, 2025

Join us for the Call out on Friday Jan 24<sup>th</sup> at 6 PM in HAMP 1144

Civil Engineering students will receive  
a \$1,000 MOH Scholarship!

The study abroad program aims to provide students with an immersive experience in engineering practices and cultural exploration in Argentina. The program will span two weeks, with one week in Buenos Aires and another in Santa Fe and Bariloche (Province of Rio Negro in the Patagonia region). Students will engage in academic activities, technical site visits, and cultural experiences. Earn 3 credits for CE 49700 or ME 49700. All students must check with their academic advisor to determine how this course can be used in your plan of study. Open to all Engineering students who have reached at least the sophomore level & up!
