

Recognizing Contract Changes and Dispute Avoidance

During the life cycle of a construction contract, even the best contract plans and specifications will still need revisions. The ability of the client, engineer, and contractor to promptly identify and mitigate change is critical to dispute avoidance and project success. This seminar will provide an introduction to Recognizing Contract Changes and Dispute Avoidance.

Raymond "Paul" Giroux, Dist. M. ASCE, NAC

Professor of Engineering Practice
Lyles School of Civil and Construction
Engineering, Purdue University

Raymond "Paul" Giroux, Dist. M. ASCE, NAC received his BS in Construction Engineering from Iowa State University in 1979. Paul worked for Kiewit for 45 years on a wide variety of heavy civil engineering mega-projects throughout the United States. He is an award-winning civil engineering historian and a recognized expert on the Great Projects. He currently serves as a Professor of Engineering Practice at Purdue University's Lyles School of Civil and Construction Engineering.
