

CRISPR Gene Editing Symposium

Plant, Animal, and Cell Line Engineering

FREE LUNCH SEMINAR
September 18th 11:00 AM- 1:45 PM

Topics will include:

- ✓ Custom Mouse and Rat Creation
- ✓ NextGEN CRISPR and Footprint-Free Gene Editing
- ✓ Plant Genetic Engineering
- ✓ Cell Line Creation
- ✓ Bioproduction

Speaker Schedule:

**DIY Gene Editing-
Getting Started with
Genome Engineering**
11:00am- 11:30am

Ken Miller,
Senior Scientist at
Transposagen

**Model Animal Creation
at the Purdue Transgenic
Facility**
11:30am- 12:00pm

Dr. Judy Hallett, Phd.
Purdue University

**Plant Genome Engineering
for Improved Bioproduction
and Agriculture**
12:30pm-1:15 pm

Dr. Ling Yuan, Phd.
University of Kentucky
Tobacco Research Center

**Gene Editing Round Table
Project Discussion and Q&A**
1:15pm -1:45 pm

Questions? Following the presentations will be an opportunity to discuss with our presenters and genome engineering experts.

RSVP by September 14th:

Please send your RSVP to Wendy Field at
wfield@purdue.edu

**Discovery Learning Research Center
ROOM 131**

207 South Martin Jischke Drive
