RE: Consumer Confidence Report

By law, we are required to inform our customers of the quality of our drinking water on campus. I am pleased to report our water not only meets, but also exceeds the standards established by the Environmental Protection Agency and the Indiana Department of Environmental Management. The Consumer Confidence Report details our findings.

In order to reach the most customers, I am requesting that you post this report in a visible place, accessible to students and staff. The report may be found on our website at: http://www.purdue.edu/physicalfacilities/pdf/CCR_2011.pdf. I appreciate your assistance with this important communication.

If you have any questions, please do not hesitate to call.

Sincerely,

Christopher A. Marks
Water / Wastewater Supervisor
