

j. s. kauling

Distinguished Lectureship

Department of Biological Sciences Seminar

October 29, 2013

4:45 pm - MJIS

*Reception at 4:15 pm in the MJIS atrium

JENNIFER LIPPINCOTT-SCHWARTZ

National Institute of Child Health and Human Development

“Navigating the cellular landscape with new optical probes, imaging strategies and technical innovations”

For more information on Dr. Lippincott-Schwartz:
<http://www.irp.nih.gov/pi/jennifer-lippincott-schwartz>

HOST: Dr. R. Claudio Aguilar

November 7, 2013

4:45 pm - MJIS

*Reception at 4:15 pm in the MJIS atrium

JOHN C.H. SPENCE

Regent's Professor in Department of Physics
Arizona State University & Lawrence Berkeley National Laboratory

“Molecular movies from the first X-ray laser”

For more information on Dr. Spence:
<http://physics.asu.edu/people/faculty/john-spence>:

HOST: Drs. Michael Rossmann & William Cramer

December 10, 2013

3:30 pm - MJIS

*Reception at 3:15 pm in the MJIS atrium

VADIM CHEREZOV

Assistant Professor of Molecular Biology
Department of Integrative Structural and Computational Biology

“Femtosecond crystallography of G protein-coupled receptors”

For more information on Dr. Cherezov:
<http://www.scripps.edu/research/faculty/cherezov>

HOST: Dr. William Cramer
