

# Bindley Bioscience Center

Invites all to attend a  
Scientific presentation by

**Stanton B. Gelvin**

*\*\*\*Bindley Research Fellow\*\*\**

Peptide aptamer “mutagenesis” for inhibiting protein function and  
generating novel phenotypes

And

**W. Andy Tao**

*\*\*\*Bindley Research Fellow\*\*\**

Molecular classification of disease subtypes based on  
multiplexed arrays and mass spectrometry

**Wednesday, October 3<sup>rd</sup>**  
**12:00 to 1:15 PM**

**MRGN 121**

**Free Refreshments**

**SAVE-the DATE:** BBC will be featuring a scientific presentation on the first Wednesday of each month
