

Graduate Seminar Series – Spring 2020

ATTENDANCE REQUIRED FOR GRADUATE STUDENTS

Forney Hall, Room G140

Tuesdays 3:00-4:15 p.m. (unless noted)

January 16 (Thursday)

Purdue Engineering Distinguished Lecture Series

Dr. Lynden A. Archer
*James A. Friend Family Distinguished
Professor in Engineering*
Smith School of Chemical
and Biomolecular Engineering,
Cornell University

Seminar: 3:00-4:00 p.m.

Reception: 4:00-4:15 p.m. outside FRNY G140

Panel Session: 4:15-5:15 p.m. in FRNY Atrium

March 31

Dr. Taekjip Ha
Bloomberg Distinguished Professor
Professor, Biophysics and Biophysical Chemistry
Professor, Biomedical Engineering
Investigator, Howard Hughes Medical Institute
Department of Biomedical Engineering,
Johns Hopkins University
Host: Dr. Chongli Yuan

February 18

Dr. James W. Swan
Associate Professor of Chemical Engineering
Department of Chemical Engineering,
Massachusetts Institute of Technology
Host: Dr. Vivek Narsimhan

February 25

Dr. Andrés J. García
*Executive Director, Parker H. Petit Institute for
Bioengineering and Bioscience*
*Petit Director's Chair in Bioengineering
and Bioscience*
Regents' Professor of Mechanical Engineering
George W. Woodruff School
of Mechanical Engineering,
Georgia Institute of Technology
Host: Dr. Julie Liu

April 14

Dr. Prasad S. Dhurjati
Professor of Chemical & Biomolecular Engineering
Joint Professor in Mathematical Sciences
Department of Chemical
& Biomolecular Engineering,
University of Delaware
Host: Dr. Doraiswami Ramkrishna

April 21 & 22 (Wednesday)

Kelly Lectures
Dr. Juan de Pablo
Liew Family Professor of Molecular Engineering
Deputy Director for Education and Outreach
Pritzker School of Molecular Engineering,
The University of Chicago
(April 22nd Lecture in FRNY 3059)

March 10

Dr. Babatunde A. Ogunnaike
William L. Friend Chair of Chemical Engineering
Professor, Center for Systems Biology – DBI
Chemical Engineering Department,
University of Delaware
Host: Dr. Gintaras Reklaitis
