

MAYMESTER 2018

RILEY HOSPITAL & RACING

In this immersive design course, students will be working to design and develop interactive features for the newly installed Indy 500 wall wrap at Riley Children’s Hospital. Students will rotate with doctors to gain a deeper understanding of the patients and Dr. Chuck’s mission to help children who have endured traumatic accidents heal faster by making their experience at the hospital fun and interactive. Students will also experience the world famous Indy 500 by attending racecar practices, the lights race, pit stop contest, and interactive museum tours to inspire ideas for their designs.

Week 1 5/14-5/18	Class will meet on campus M-F 1:30-4:30pm for introduction to design and to learn design skills.
Week 2 5/21-5/25	We will spend the week in Indianapolis to learn about the needs first-hand and to design and prototype solutions to meet those needs. Accommodations and meals provided.
Week 3-4 5/28-6/8	Back to campus to finalize designs and documentation. Class will meet M-F 1:30-4:30pm.
Cost	Summer tuition plus an additional \$500 to cover transportation, accommodations, and meals while we are in Indianapolis.

3 Credit Hour Class

May 14 - June 8

All majors welcome!
Instructor approval required.
