- > Establishing communication with partners.

Announcements :

- > 2 more weeks till Notebook Review! Wohoo, again!
- > Please take a look at the previous semesters' work done, and try to get a general understanding of the semester structure.

General Note:

I am planning to send a ??newsletter?? or something like this to all of you, so everyone is aware of what is happening in the other teams and know what is due, and when the due date is. Please remember that since we are all working on different stuff, communication is KEY to everything. I know all of you are busy with classes and the last thing you need is a suprise all nighter to get things done. If you can't make it to team meetings, make it a point to TELL your team members. Know what is required from your roles and if you are not sure about it, you can always message me or our TA; Kelsey Welch and get it sorted out. Remember that Thursdays are PIGS days and please send it to me at your earliest possible convenience.

Cheers, Rahul
