### ***Why Go Solar Now?***

**1. Now is the cheapest Solar Panels have ever been:** about 75% less than the cost in 2010. And, once the panels are paid off, all of the money you would have paid for your monthly electric bill is now money in your pocket.

**2. Group Discount:** When we go solar with Solarize Greater Lafayette, it's like buying in bulk (think Costco, Sam's Club), so we get a cheaper group rate.

**3. Simple:** We have pre-selected a competitive solar installer- they will come to your home and develop an individualized plan that works for you.

**Make It Simple:** Attend an information session to understand financing, site suitability, costs & payback, and more.

**To Qualify for Solarize Group Discount:**

**Simply Show Up and Sign a Letter of Intent.**

**No Obligation. No Payment Required.**
