Topic:

Earthquakes and structural failures of the Haiti
Earthquake

Speaker:

Dr. Sozen, a Kettelhut Distinguished Professor of Structural Engineering

Dr. Sozen will be giving a 25 min. presentation about earthquakes and provide some insight on the structural failures that occurred during the Haiti Earthquake.

DATE: Wednesday January 27th

TIME: 6:30pm – 7:30pm

LOCATION: CIVL 1252

Wed., Feb. 27, 6:30 pm, 1252 CIVL.

Prof. Mete Sozen, the Kettelhut Distinguished Professor of Civil Engineering and member of the National Academy of Engineering is one of the world's foremost earthquake structural engineers.

His emphasis in the presentation on Wednesday evening will be on "What Ought to Have Been Done in Haiti".
