

# The College of Engineering Ambassadors

The CoE Ambassadors are a vibrant, dynamic, charismatic, and knowledgeable group of engineering students representing all of the disciplines as the face of the college. Ambassadors have the opportunity to work with the College of Engineering Advancement Team, network with Purdue Engineering Alumni, interact with Industry professionals, develop leadership skills, mentor First-year Engineering Students, and assist with the recruitment of future engineers.

## SELECTION PROCESS

---

Each fall semester, any student interested in the program will be invited to apply. Applications will then be screened and those who pass the screening will be invited to interview with the Selection Team. The selected Ambassadors will begin the following spring semester.

## MINIMUM REQUIREMENTS

---

- Must be currently enrolled in one of the Professional Schools or Divisions in the College of Engineering
- Must have successfully completed First-Year Engineering program
- Must have and maintain a cumulative GPA of 2.8
- Must have at least 2 semesters remaining before graduation

## EXPECTATIONS

---

- Registration, attendance, and participation in ENGR 40600 – Engineering Leadership Seminar (Tuesdays, 6:00-7:00pm) – each semester. Due to the nature of hosting guest speakers, class will sometimes run longer than one hour.
- Participation in a minimum number of events each semester
- Professional attitude and behavior as representatives of the Purdue University College of Engineering

## AMBASSADOR ACTIVITIES (TYPICALLY – SOME ACTIVITIES ARE NOT HAPPENING DUE TO COVID RESTRICTIONS)

---

- Attend Purdue home football games in the Dean’s suite and interact with the invited guests and alumni
- Host and emcee College-wide luncheons and dinners
- Host and emcee building or space dedications
- Attend Homecoming and Family Day events
- Promote Purdue Day of Giving with events and social media
- Give tours of College of Engineering buildings to select guests
- Assist Development Officers with College-wide initiatives
- Meet with special Future Engineers and their families

## BENEFITS OF PARTICIPATION

---

- Development of professional skills such as public speaking and networking
- Receive Ambassador branded polos, a sweater, name tag, and business cards
- Work with Alumni/ae who are currently or were at the top of their professions
