

CALL FOR YOUNG GLOBAL CHANGERS

When the G20 leaders come together in Germany later this year, they will discuss global solutions to the most pressing issues facing our planet. In the run-up to this event, some of the world's

most respected think tanks are meeting at the Think 20 Summit GLOBAL SOLUTIONS in Berlin this May. We are inviting Young Global Changers from around the world to participate in this con-

ference. We encourage applications from people with a passion for change and a background in social volunteering, academia, technology, start-ups, journalism or blogging. We can help

you with your travel expenses; you can help us change the world.
