

REQUEST FOR POSTER ABSTRACTS

I²D Lab Exposition

Engineering for the  **SUSTAINABLE
DEVELOPMENT**  **GOALS**

Student Poster Session

Thursday, March 29, 2018
Armstrong Atrium, 3:00-8:00 pm

Any team (undergraduate or graduate) working on an engineering innovation for international development is invited to contribute a poster at this event. International development-related R & D in engineering includes, but is not limited to: low-cost appropriate technologies for energy access; agricultural production and processing mechanization; water and sanitation solutions; healthcare technologies for the developing world; humanitarian response solutions; labor-saving innovations; and information and communication technologies for education or for economic development.

CASH PRIZES!

First Place - \$750.00

Second Place - \$500.00

Third Place - \$250.00
