Park Systems is proud to support its entire user base and is now awarding scholarships to

**STUDENT AND POSTDOC
PARK AFM USERS**

who share their nanoscale research with the greater scientific community!

To apply, please visit parkafm.com/scholarship

Have questions? Need help finding a Park AFM near you?

Email us at inquiry@parkafm.com or call us at (408) 986-1110

Will you be the next Park AFM Scholar?

Apply today!

If you are a student or postdoctoral scholar working in the field of nanoscience, apply for a new scholarship from Park Systems!

We are awarding two types of scholarships to Park Atomic Force Microscopy (AFM) Scholars who share research performed with a Park AFM with others in the nanoscience community. If you need help finding a Park AFM to perform qualifying research, contact us and we can help find the one nearest you.

If your presentation is selected for an award, you can receive up to a \$500 scholarship! All Park AFM Scholars will also receive an official award certificate and may also have their research featured in an upcoming issue of *NanoScientific* magazine! Read about last year's awardees in previous issues available online at: parkafm.com/index.php/medias/resources/nanoscientific.

To apply, visit parkafm.com/scholarship and fill out the online application form. Make sure to have your presentation title and abstract ready. Awardees will be notified individually.

Park Systems is a leading manufacturer of scientific instruments for nanoscale research, including AFM systems. We aim to support the next generation of trail blazers in nanoscience by encouraging young researchers to share and discuss their work as freely as possible.

Don't wait, apply for your scholarship today!
