

RESEARCH SEMINAR SERIES PRESENTS

IMPACT

DEFINING & ASSESSING STUDENT CENTERED LEARNING

IMPACT is a large course transformation program at Purdue. Over 200 courses in all colleges at Purdue have been transformed through this process. The goal of IMPACT is to increase competency and student-centered learning. In this presentation, the IMPACT

story will be shared, including the assessment of IMPACT and student-centered learning. As part of the talk, Chantal will talk about her road to professional development and how her experience as a faculty has shaped that trajectory.

Speaker **Chantal Levesque-Bristol**
Professor of Educational Psychology and
Director of the Center for Instructional Excellence
at Purdue University

Dr. Levesque-Bristol holds a Ph.D. in social psychology from the University of Ottawa, and has been a Visiting Professor at the University of Rochester and Professor of Psychology and Director of the Faculty Center for Teaching and Learning at Missouri State University. She has taught courses in statistics and research methods at the undergraduate and graduate level. Her scholarly work is in the area of human motivation generally and academic motivation specifically. Using the theoretical framework of Self-Determination Theory, she conducts basic research in motivation and social psychology and applied research in education, learning, and student retention, and has been active in several Teaching and Learning program. As Director of the Center for Instructional Excellence (CIE), she provides support for the instructional community and resources to faculty interested in teaching and learning pedagogies as well as the Scholarship of Teaching and Learning (SoTL). CIE is also a collaborating partner in the large course transformation project IMPACT at Purdue. Levesque-Bristol is the recipient of several Teaching and Research Awards. She is a grantee of the National Institute of Mental Health and the Department of Education (Fist-in-the-World grant). She has lectured at several institutions of Higher Education in the U.S., and overseas, on motivation and learning principles.
